

Rupesh Pradhan

Full Stack Developer — MERN Stack Developer

+91 7327001410 | merupeshpradhan@gmail.com | LinkedIn | GitHub
Bhubaneswar, Odisha, India

Professional Summary

Results-driven **Full Stack Developer** skilled in the **MERN Stack**, scalable web application development, **RESTful APIs**, **JWT authentication**, and database optimization. Experienced in building responsive frontend interfaces with React.js and secure backend systems using Node.js, Express.js, and MongoDB.

Technical Skills

Frontend: React.js, JavaScript, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, JWT, Bcrypt, MVC Architecture

Database: MongoDB, PostgreSQL, Mongoose, NoSQL

Tools: Git, GitHub, Docker, Postman, Cloudinary, Multer

Core Concepts: CRUD Operations, Authentication, Authorization, API Integration

Experience

Preplabs

MERN Stack Developer Intern

Remote, India
Aug 2023 – Sep 2023

- Developed scalable full-stack applications using React.js, Node.js, and MongoDB, improving system efficiency by 20%.
- Built secure RESTful APIs and implemented JWT authentication, reducing API response time by 15%.
- Optimized MongoDB schemas and backend queries, improving application performance by 25%.

Projects

Pic-Note Social Media Platform

2025

MERN Stack, Tailwind CSS, Cloudinary

- Developed a social media platform with authentication, image uploads, and responsive UI components.
- Implemented JWT authentication, Bcrypt password hashing, and Cloudinary integration.
- Achieved a 95+ Google Lighthouse performance score through frontend optimization.

Task-Flow Management System

2024

React.js, Node.js, MongoDB

- Built a collaborative task management application with CRUD operations and protected routing.
- Managed frontend state using React Hooks and designed RESTful backend APIs.

Education

Silicon University

Master of Computer Applications (MCA)

CGPA: 7.40

Bhubaneswar, India
2022 – 2024

Government Autonomous College

B.Sc. in Computer Science

CGPA: 7.43

Angul, India
2019 – 2022

Strengths

Problem Solving, Backend Debugging, Database Optimization, Technical Documentation, Team Collaboration

Languages

English, Hindi, Odia
