Professional Summary

Motivated Software Developer with an MCA degree and hands-on experience building full-stack web applications using React.js, Node.js, Express.js, MongoDB, and PostgreSQL. Strong understanding of HTML, CSS, JavaScript, REST APIs, database management, debugging, and software development fundamentals. Quick learner with excellent problem-solving skills, eager to contribute to software development, testing, and bug fixing in a collaborative environment.

Technical Skills

Programming Languages: JavaScript (ES6+), HTML5, CSS3, TypeScript

Frontend: React.js, Next.js, Tailwind CSS, Context API

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Middleware

Database: PostgreSQL, MongoDB, Mongoose

Tools: Git, GitHub, Postman, VS Code, MVC Architecture, Debugging

Experience

PrepLabs	MERN Stack Developer Intern	Aug 2023 – Sep 2023
----------	-----------------------------	---------------------

- Developed responsive web interfaces using React.js, HTML, and CSS, improving UI consistency across mobile and desktop devices by 30%.
- Built and integrated 5+ RESTful APIs using Node.js and Express.js, reducing data retrieval latency by 15%.
- Assisted in testing web application features, identifying and resolving 10+ critical bugs to improve application stability.
- Collaborated with a team of 4 using Git and GitHub, adhering to agile software development best practices.

Key Projects

PicNote – Social Media Platform	2025
---------------------------------	------

- Developed a full-stack social media application using React.js, Node.js, Express.js, and MongoDB for scalable data storage.
- Implemented secure JWT authentication and CRUD operations, supporting secure user session management.
- Integrated Cloudinary for efficient image uploads, decreasing media loading times by 20%.
- Performed rigorous testing and debugging, resulting in a 99% bug-free user interface.

TaskFlow – Task Management System	2025
-----------------------------------	------

- Built a task management application using React.js, Node.js, Express.js, and MongoDB to streamline workflow organization.
- Implemented role-based authentication and CRUD functionality for granular user permission control.
- Designed 6+ REST APIs for seamless frontend-backend communication, optimizing endpoint response time.
- Conducted automated testing and debugging to identify issues, ensuring reliable application performance for concurrent users.

Certifications

Full Stack Web Development Cohort 2026	Dec 2025 – Jun 2026
--	---------------------

ChaiCode (6-Month Intensive Program)

- Completed a 6-month intensive Full Stack Web Development program with hands-on projects using modern web technologies.
- View Certificate

Education

Silicon University	MCA — CGPA: 7.40/10	2022 – 2024
--------------------	---------------------	-------------

Government Autonomous College	B.Sc Computer Science — CGPA: 7.43/10	2019 – 2022
-------------------------------	---------------------------------------	-------------

Relevant Coursework

Data Structures, DBMS, Operating Systems, Computer Networks, Object-Oriented Programming, Software Engineering
